Maceió, Brazil | devandrenicolas@gmail.com | Portfolio | LinkedIn | GitHub

Summary

Angular Developer focused on product work, with experience evolving privacy and compliance SaaS surfaces. Translates requirements and business rules into maintainable interfaces using TypeScript, Signals, RxJS, reusable components, quality practices, and production delivery.

Experience

MSPA — Frontend Engineer (product and full-stack contributions) Apr. 2025–Present

- Evolve Compass, Trust Center, and compliance surfaces used by 10+ companies, taking work from context, requirements, and business rules through implementation, debugging, delivery, and production support.
- Build Angular and TypeScript interfaces with Signals, RxJS, and reusable components to make product flows and compliance rules clear and maintainable.
- Contributed to a framework-agnostic consent flow with Web Components, Lit, and Shadow DOM, integrated with Cloudflare Workers, KV, D1, and Durable Objects.
- Investigate issues spanning frontend, Go APIs, SQL/PostgreSQL, and integrations; use tests, code review, and CI/CD to deliver changes with quality.
- Improve UX, accessibility, SEO, and performance across web surfaces, and integrate generative-AI features with Genkit, contextual input, sanitization, and structured responses when a product flow requires it.
