

ANDRÉ NICOLAS SILVA

Frontend Engineer | Angular, React, TypeScript and Web Products

Maceió, Brazil ▪ devandrenicolas@gmail.com
Portfolio ▪ [GitHub](#) ▪ [LinkedIn](#)

SUMMARY

Frontend Engineer focused on product, user experience, and maintainable web systems. Experience evolving production SaaS surfaces from requirements and business rules through technical definition, implementation, debugging, and delivery. Works with **Angular, React, TypeScript, Astro, Web Components, Lit, accessibility, SEO, performance, and APIs**; uses AI deliberately for solution exploration, code review, and test support.

SKILLS

Frontend: Angular, React, TypeScript, JavaScript, Next.js, Astro, HTML, CSS, Signals, RxJS, Tailwind CSS.

Web architecture: Component-based architecture, Web Components, Lit, Shadow DOM, reusable components, separation of concerns.

Product and quality: product requirements, business rules, UX, accessibility, SEO, performance, Lighthouse, Git, code review, Vitest, automated testing, CI/CD, and debugging.

Platform: REST APIs, Go, SQL, PostgreSQL, Cloudflare Workers, KV, D1, Durable Objects, and edge computing.

AI: Genkit, user-facing LLM features, contextual prompting, input sanitization, structured outputs, Codex, Claude, MCPs, agents, and SDD.

EXPERIENCE

MSPA — Frontend Engineer (Product Focus)

Apr. 2025 – Present

SaaS platform for privacy, LGPD compliance, and digital auditing

- Evolve Compass, Trust Center, and compliance surfaces used by **10+ companies**, from product context and requirements through delivery and production support.
- Build interfaces and reusable systems with **Angular, React, TypeScript, Astro, Web Components, and Lit**; apply Signals, RxJS, and Shadow DOM when appropriate.
- Contributed to a framework-agnostic consent flow integrated with **Cloudflare Workers, KV, D1, and Durable Objects**.
- Investigate and improve UX, accessibility, SEO, and performance while working with code review, Vitest, CI/CD, debugging, and deployment.
- Integrate user-facing generative-AI features with Genkit, contextual prompting, input sanitization, and structured responses.
- Reorganized an engineering workflow in a critical phase, directly coordinating four contributors within a six-person team.

OPEN SOURCE

Stoat / Revolt Platforms LTD — Volunteer Frontend Engineer

2026 – Present

Frontend and UX contribution to Stoat's web client; a file-size validation-error fix was merged by maintainers.

SELECTED PROJECTS

Compliance Portal — Content and web experience

Astro, TypeScript

Content UX and SEO work with a shared TypeScript glossary component in a pnpm workspace.

eCarryOn Landing — Landing and content system

Astro, Tailwind CSS

Static landing page and blog with reusable sections, structured content, design tokens, responsive layouts, sitemap, canonical URLs, and Open Graph.

Diário de Campo Escoteiro — Offline-first PWA

React, TypeScript, PouchDB/CouchDB

Installable field-record application with local data and automatic synchronization after reconnection.

EDUCATION

Tecnólogo in Internet Systems — UNCISAL, Brazil

Completed 2026

Brazilian higher-education technology degree.
